

Recall and Replacement Timetable

Type of airbag inflator	Time by which recall action must be initiated	Time by which inflators of this type must be replaced
Alpha Inflators	Not applicable	Not applicable
All other Affected Takata Airbag Inflators	Recalls will be initiated on a rolling basis to allow replacements to be prioritised according to priority safety factors, including climate at the location of the vehicle, the age of the vehicle and whether the airbag is a driver or passenger side airbag. For more information on future recall initiation dates please see Recall Initiation Schedule.	The recall and replacement timetable for the Compulsory Recall requires vehicles with faulty Takata airbags to be recalled and the airbag inflators removed and replaced as soon as practicable, and by no later than 31 December 2020 (or a later date approved by the ACCC).
